

# WARNING!!!

## STORM SEASON IS HERE!!

Is your home and equipment protected from lightning & surges?

Probably not!!

Most people wait until they need something before they get it-however, in the case of surge protection, if you wait until you need them....

**IT'S TOO LATE!**

### DID YOU KNOW:

1. Many homeowner policies don't cover lightning strikes. This unit made for 200amp Service.
2. Many insurance companies give a discount for homes that have surge protectors.
3. The average home gets hit with over 20 energy spikes a day.
4. You get up to 30% more life out of your appliances and electronic equipment if you use surge protectors.
5. A lightning strike up to one mile away can do damage to your sensitive equipment.
6. That you can get peace of mind \ inexpensively.

Please ask our Authorized Dealer/Installer about the special this month.

## Limited Product Warranty

Sycom warrants that the SYC-120/240-T2 Single Phase product is free from defects in material and workmanship for the lifetime of the product. The warranty period is from the date of purchase by the original owner, or customer of record at the installed premise. This is a limited warranty and is not intended to be an insurance policy.

This warranty becomes null and void upon the Sycom unit having been physically damaged from accidental or intentional misuse; repair or attempted repair by an unauthorized repairperson; or where the cause of damage is due to a sustained over-voltage. The Transient surge must have come through the SYC-120/240-T2 and have caused damage to the Sycom unit for this warranty to apply.

### Electro-Mechanical Connected Equipment Repair or Replacement Policy

Subject to the limitations set out herein, including the damage limits, Sycom shall at its sole option either pay the present fair market value or pay for the cost of the repair up to the maximum amount set forth below of warranted items any standard residential electro-mechanical appliance, which has sustained damage from transient surges while properly connected to the SYC-120/240-T2 and used for the purposes intended by Sycom. Damage from direct, catastrophic lightning hits are not covered under this warranty.

The connected equipment policy applies to standard residential electro-mechanical appliances inside the home. Strictly electronic components (e.g. microprocessors and circuit boards) are not included in this warranty.

Any claim for damages under this repair or replacement policy shall be limited to \$1500.00 per item up to but not exceeding Twenty-Five Thousand Dollars (\$25000.00) per occurrence, nor shall Sycom be liable for any incidental, consequential, or special damages or any economic loss.

The following warranty terms apply:

1. Standard residential electro-mechanical appliances shall be limited to: refrigerators, stoves, washers, dryers, dishwashers, freezers, furnaces, the mechanical components of air conditioner/handler systems and well pumps. See #2 for details on well pumps.
2. Well pumps will only be covered when; transients go through the electrical feed at the wellhead connection. The well pumps will not be covered if transients are ground induced.
3. Thermostats are not covered if mounted more than ten (10) feet from the appliance unless a Sycom product protects the thermostat.
4. A licensed electrician or utility company representative must have properly connected the Sycom product and the connected equipment to properly wired and grounded outlets/power supplied (including compliance with electrical and safety codes of the most current National Electrical Code ANSI/NFPA 70), without the use of any adaptors, extension cords or other connectors. An HVAC technician or installer may install this unit only onto the load side of the equipment disconnect.
5. **MEDICAL, LIFE SUPPORT, AND SECURITY EQUIPMENT IS EXPRESSLY EXCLUDED. DO NOT USE FOR SECURITY, MEDICAL OR LIFE SUPPORT EQUIPMENT OR OTHER HIGH RISK ACTIVITIES.**
6. Service charges, installation fees and diagnostic fees are not covered under this warranty.
7. The Sycom unit must have been installed according to Sycom's instructions.
8. The damage claim must be made within 15 days of the occurrence and the Sycom unit must be returned to Sycom for testing within 30 days of the occurrence.
9. The Sycom unit must be deemed to have failed based on Sycom's factory test procedures.
10. The claimant must complete Sycom's Insurance Claim Form describing the circumstances of the surge protector's failure.
11. Where the damaged equipment is covered under manufacturers warranty or any applicable extended warranties, the Sycom warranty is void.
12. All returned product must have a return authorization number assigned by Sycom.

### Claim Procedure

The manufacturer of the product provides a toll free telephone number for filing a claim. Call **1-800-622-9904** to obtain instructions and claim forms. Please leave your name, address and a telephone number where you can be reached by a factory representative.

This is the sole warranty provided by the manufacturer. No other express or implied warranty is provided. The giving of, or failure to give, any advice or recommendations by the Manufacturers shall not constitute any liability. This warranty is in lieu of any and all warranties expressed, implied or statutory as of the merchantability, fitness for purpose sold, description, quality, productiveness or any other matter.

**Warranty terms and conditions effective 3/2/12. Subject to change without notice.**
